Cancer Screening

Sydney Street Medical recognises the importance in providing patients with a high standard of quality care. We are currently participating in Cancer Screening CQI (Continuous Quality Improvement).

As part of this health initiative we are offering ***Bulk-Billed Cancer Screening Health Checks** for Breast, Bowel (FOBT) and Skin during the months of November to January.

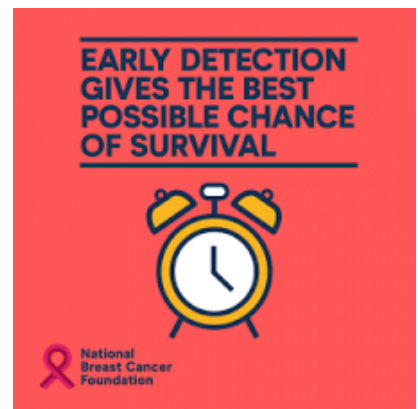

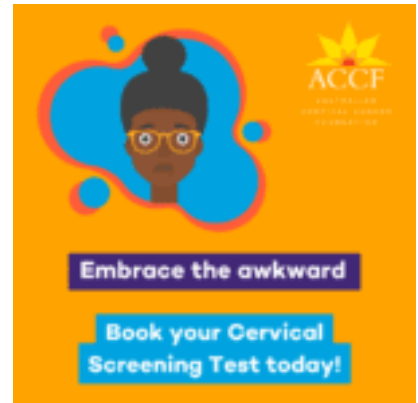

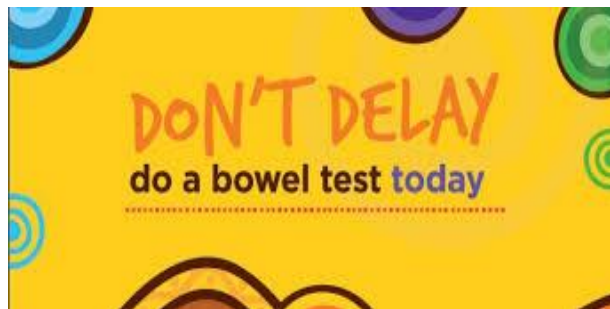

*Conditions Apply

Screening is recommended for both men and women, young and old. By checking your body regularly before the onset of symptoms, cancers such as breast, cervical and bowel may be detected earlier, when treatment is likely to work best.

Recommend Ages

25 – 75 yrs	Cervical Screening
40-75 yrs	Breast Screening
≥ 50 yrs	Bowel Screening
≥ 14 yrs	Skin Check
